

I am requesting that K-LOVE not be removed to give priority to a new LPFM station. K-LOVE provides a much needed service to our community by broadcasting positive family value content material. We are bombarded today with inappropriate materials and our children are suffering because of it. In a community where there is a K-LOVE station people's lives are enriched. I drive 2 children to and from school every day and we listen to K-LOVE the entire time. My nephew has been VERY positively affected -- he now prays with us, but before he didn't feel comfortable. We are raising young people now to be the future of our great country -- these young people NEED every positive influence they can get. So many children today spend very little time with their parents for a variety of reasons and are likely to be influenced tremendously by the media. Let's allow this POSITIVE influence to be available to as many people as possible to at least try to offset some of the damage done by the ever-increasing bombardment of negative influences out there. Thank you for your consideration.
